

EIS Wire & Cable

Dear Wire and Cable user,

I am happy to announce that EIS Wire & Cable. Inc. is back to a full work force. We are following COVID-19 rules and regulations to keep everyone safe. We now have open manufacturing time to fill.

EIS Wire & Cable is here to help you with your cable needs. We specialize in Factory Automation, Audio Broadcasting, Industrial, and Defense industries. We are fully operational, and we need to fill our open manufacturing capacity.

At EIS, we aim to develop and maintain committed relationships with our customers through quality manufacturing and engineering expertise, competitive pricing, superior quality, quick turn around on time delivery.

Our skilled Engineering staff are prepared to design and build cables to meet your objectives and can make your prototype concepts a reality on equipment that can produce sophisticated cables in production quantities

Our manufacturing facility is a 125,000 sq./ft Based in South Hadley, MA, and we have been in business since 1910, providing high quality, bulk wire and cable.

We are ISO 9001:2015, and ITAR registered.

We have open capacity available to begin immediately, so please don't hesitate to call or e-mail us for anything that you need quoted. We will gladly review them and generally turn quotes around in 24-48 hours or less.

For more information please see our website: www.eiswire.com. We're looking forward to meeting you and servicing your account.

Mike Cinicolo
